Dec/Jan school holidays - check out our holiday schedule for more fun art!	

Kindy-Art is aimed at 2-5 year olds*.

A new focus activity is introduced each week, and always there is painting at easels and playdough /construction available too. We aim to get young children thinking about different topics and how to communicate visually which is an essential foundation for their educational development. They learn about colours, shapes and how to manipulate and interact with different art-tools and techniques.

Always the child's creative-freedom is encouraged, and they may choose to create something quite different from the examples provided - we embrace such individuality!

The art activities go for 45 minutes and then final clean-up and collection of artwork takes place.

* the best age for your child to start our art classes will depend on the development of each individual child, but somewhere between the age of 2-3 they will develop the focus and concentration to enable them to engage properly - feel free to discuss with us!

*** Please note:**

- All basic materials are provided for in the class.
- We provide art-smocks, but please always make sure your child wears clothes that they can get messy in!
- Parents are expected to assist and help supervise their own children.
- Space and facilities available for babies and younger siblings not involved in the class too!
